En nuestra fábrica de terracota de Boialvo, una pequeña ciudad del distrito de Aveiro, damos vida a la colección de terracota tradicional de Artevasi con macetas funcionales y atemporales de calidad superior, respetando siempre la naturaleza y la tradición.

[DE]

In unserer Terrakotta-Fabrik in Boialvo, einer kleinen Stadt im Distrikt Aveiro, erwecken wir die traditionelle Terrakotta-Kollektion von Artevasi zum Leben. Unsere funktionalen und zeitlosen Blumentöpfe zeichnen sich durch höchste Qualität aus und werden stets mit Respekt für die Natur und die Tradition gefertigt.

[PT]

Na Artevasi, garantimos a produção de vasos de terracota com recurso a materiais resistentes, naturais e amigos do ambiente. Aqui, trabalhamos e respeitamos o barro todos os dias, aperfeiçoando as técnicas dos nossos antepassados sem nunca desvirtuar a essência de um vaso de terracota. Na nossa fábrica, adotamos métodos de produção cada vez mais sustentáveis, os quais nos esforçamos por melhorar diariamente. Como tal, cerca de 70% da energia produzida provém de fontes renováveis, sendo que contamos com mais de 900 painéis solares nas nossas instalações. Da mesma forma, o nosso forno conta com tecnologia avançada que reintroduz o calor gerado na cadeia de produção.

En Artevasi, garantimos la producción de macetas de terracota con materiales resistentes, naturales y respetuosos con el medioambiente. Aquí trabajamos y respetamos la arcilla cada día, perfeccionando las técnicas de nuestros antepasados sin desvirtuar nunca la esencia de una maceta de barro cocido. En nuestra fábrica hemos adoptado métodos de producción cada vez más sostenibles, que nos esforzamos por mejorar a diario. Así, alrededor del 70 % de la energía que producimos procede de fuentes renovables, y tenemos más de 900 paneles solares en nuestras instalaciones. Nuestro horno también cuenta con una avanzada tecnología que reintroduce el calor generado en la cadena de producción.

Around 80.000 pots produced per day

At Artevasi, we guarantee the production of terracotta pots using resistant, natural and eco-friendly materials. Here, we work with and respect the clay every day, refining the techniques of our ancestors without ever distorting the essence of a terracotta pot. In our factory, we have adopted increasingly sustainable production methods, which we strive to improve daily.

Almost 70% of the energy produced comes from renewable sources

Kiln equipped with advanced technology that reintroduces the heat into the production chain

[FR]

Chez Artevasi, nous produisons des pots en terre cuite en utilisant des matériaux résistants, naturels et respectueux de l'environnement. Nous travaillons et façonnons l'argile au quotidien, en perfectionnant les techniques de nos ancêtres sans jamais dénaturer l'essence d'un pot en terre cuite. Dans notre usine, nous avons adopté des méthodes de production de plus en plus durables, que nous nous efforçons d'améliorer quotidiennement. Ainsi, environ 70 % de l'énergie produite provient de sources renouvelables grâce aux plus de 900 panneaux solaires existants dans nos locaux. De même, notre four est doté d'une technologie de pointe qui réintroduit la chaleur générée dans la chaîne de production.

[DE]

Bei Artevasi garantieren wir die Herstellung von Terrakotta-Blumentöpfen aus widerstandsfähigen, natürlichen und umweltfreundlichen Materialien. Hier arbeiten wir jeden Tag mit Ton und respektieren ihn, indem wir die Techniken unserer Vorfahren perfektionieren, ohne jemals das Wesen eines Terrakotta-Blumentopfes zu verfälschen. In unserer Fabrik haben wir zunehmend nachhaltige Produktionsmethoden eingeführt, die wir täglich zu verbessern versuchen. So stammen rund 70 Prozent der von uns erzeugten Energie aus erneuerbaren Quellen, und wir haben mehr als 900 Sonnenkollektoren auf unserem Gelände. Ebenso verfügt unser Ofen über eine fortschrittliche Technologie, die die erzeugte Wärme wieder in die Produktionskette einspeist.

New?

Amália

Inspired by the voice of Portugal and Fado, Amália Rodrigues, this range is a hymn to the *classic and traditional* format, standing out for its adaptability, whether in more modern or traditional environments. With new options of pots and bowls in the *Campana* lines and new plant boxes and pots for orchids, the Amália range is suitable for indoor use (with a saucer) or outdoor use, enjoying various sizes with a palette of three colours in earth tones. Produced entirely in Portugal from our terracotta factory, this versatile range translates into breathable, environmentally friendly pots with drainage holes.

[PT]

Inspirada na voz de Portugal e do Fado, Amália Rodrigues, esta gama é um hino ao formato clássico e tradicional, destacando-se pela adaptabilidade, quer em ambientes mais modernos ou tradicionais. Com novas opções de vasos e taças nas linhas Campana, assim como novas floreiras e vasos para orquídeas, a gama Amália é indicada para uso indoor (com prato) ou outdoor, usufruindo de diversos tamanhos com uma paleta de três cores em tons terra. Produzida integralmente em Portugal, a partir da nossa fábrica de terracota, esta gama versátil traduz-se em vasos respiráveis, amigos do ambiente e com orifício para drenagem.

[FR]

Inspirée par la voix du Portugal et du Fado, Amália Rodrigues, cette gamme est un hymne au format classique et traditionnel, qui se distingue par son adaptabilité, soit dans des environnements plus modernes soit dans les plus traditionnels. Avec de nouvelles solutions de pots et de coupes dans les lignes Campana et de nouvelles jardinières et pots pour orchidées, la gamme Amália peut être utilisée à l'intérieur (avec une soucoupe) ou à l'extérieur, avec différentes tailles et une palette de trois couleurs dans les tons de terre. Entièrement produite au Portugal dans notre usine de terre cuite, cette gamme polyvalente se traduit par des pots respirants, respectueux de l'environnement et dotés de trous de drainage.

Con nuevas opciones de macetas y copas en las líneas Campana y nuevas jardineras y macetas para orquídeas, la gama Amália se adapta al interior (con plato) o al exterior, disfrutando de varios tamaños con una paleta de tres colores en tonos tierra. Producida enteramente en Portugal, en nuestra fábrica de terracota, esta versátil gama se traduce en macetas respirables, respetuosas con el medio ambiente y con orificios de drenaje.

[DE]

Inspiriert von der Stimme Portugals und des Fado, Amália Rodrigues, ist diese Serie eine Hymne an das klassische und traditionelle Format und zeichnet sich durch ihre Anpassungsfähigkeit aus, sei es in modernen oder traditionellen Umgebungen. Mit den neuen Optionen von Gefäße und Schalen der Campana-Linien sowie den neuen Blumenkästen und Töpfen für Orchideen eignet sich die Serie Amália sowohl für den Innenbereich (mit Untersetzer) als auch für den Außenbereich und bietet verschiedene Größen und eine Palette von drei Farben in Erdtönen. Diese vielseitige Serie wird vollständig in Portugal in unserer Terrakotta-Fabrik hergestellt und besteht aus atmungsaktiven, umweltfreundlichen Töpfen mit Abflusslöchern.

Saramago

The writer awarded the Nobel Prize for Literature in 1998, José Saramago, lends his genius to this *simple, pure, straight-lined* range which, combined with its rounded edge, gives rise to genuinely timeless products. With a new high pot model, the Saramago range is made entirely in Portugal, from our terracotta factory. Suitable for indoor (with a saucer) or outdoor use, this is a frost-proof, versatile and environmentally friendly solution with a drainage hole.

[PT]

O escritor galardoado com o Nobel da Literatura em 1998, José Saramago, empresta a sua genialidade a esta gama simples, pura e de linhas direitas que, combinadas com a sua borda arredondada, dão origem a produtos verdadeiramente intemporais. Com um novo modelo em vaso alto, a gama Saramago é produzida integralmente em Portugal, a partir da nossa fábrica de terracota. Indicada para uso indoor (com prato) ou outdoor, esta é uma solução à prova de gelo, versátil e amiga do ambiente, com orifício para drenagem.

[FR]

L'écrivain lauréat du prix Nobel de littérature en 1998, José Saramago, prête son génie à cette gamme simple, pure, aux lignes droites qui, combinées à un bord arrondi, donnent naissance à des produits véritablement intemporels. Avec un nouveau modèle de vase haut, la gamme Saramago est entièrement produite au Portugal dans notre fabrique de terre cuite. Utilisable à l'intérieur (avec une soucoupe) ou à l'extérieur, il s'agit d'une solution résistante au gel, polyvalente et respectueuse de l'environnement, dotée d'un trou de drainage.

[ES]

El escritor galardonado con el Premio Nobel de Literatura en 1998, José Saramago, presta su genio a esta gama sencilla, pura y de líneas rectas que, combinada con su borde redondeado, da lugar a productos genuinamente atemporales. Con un nuevo modelo de maceta alta, la gama Saramago se produce íntegramente en Portugal, en nuestra fábrica de terracota. Apta para interior (con plato) o exterior, es una solución resistente a las heladas, versátil y respetuosa con el medio ambiente, con orificio de drenaje.

[DE]

Der Schriftsteller und Literaturnobelpreisträger von 1998, José Saramago, hat sein Genie in diese schlichte, reine und geradlinige Serie einfließen lassen, die in Verbindung mit dem abgerundeten Rand wirklich zeitlose Produkte hervorbringt. Mit einem neuen hohen Vasenmodell wird die Saramago-Serie vollständig in Portugal in unserer Terrakotta-Fabrik hergestellt. Diese frostsichere, vielseitige und umweltfreundliche Lösung mit Abflussloch eignet sich für den Innen- (mit Untersetzer) und Außenbereich.

Pessoa

Fernando Pessoa, one of the greatest poets of the 20th century and a significant figure in Portuguese literature, is honoured with this range of *traditional lines* full of history and *versatility*, offering a natural and unique beauty to both plants and the decorative context. This range is suitable for indoor (with a saucer) and outdoor use and features frost-resistant properties and a drainage hole. Produced in our terracotta factory in Portugal, Pessoa pots are eco-friendly and breathable and come in three earthy colours.

Manuel

The Manuel pot was developed as a family tribute, translating into timeless features, combining the *classic aspect* of its material with the *contemporaneity of its design*. Now with a new size, this range translates into breathable pots with drainage holes and a palette of three colours in earth tones. Produced with natural resources, the Manuel pot is suitable for indoor (with a saucer) or outdoor use, frost-resistant and translates into a unique, quality product, with production entirely made in Portugal from our terracotta factory.

[PT]

O vaso Manuel foi desenvolvido como uma homenagem familiar, traduzindo-se em traços intemporais, aliando a vertente clássica do seu material à contemporaneidade do seu design. Agora com um novo tamanho, esta é uma gama que se traduz em vasos respiráveis, com orifício para drenagem e uma paleta de três cores em tons terra. Produzido com recursos naturais, o vaso Manuel é adequado para uso indoor (com prato) ou outdoor, resistente ao gelo e traduz-se num produto único e de qualidade, com produção integralmente feita em Portugal, a partir da nossa fábrica de terracota.

Le pot Manuel a été développé en hommage à la famille, se traduisant par des caractéristiques intemporelles, combinant l'aspect classique de son matériau avec la contemporanéité de son design. Avec une nouvelle taille, cette gamme se traduit par des pots respirants dotés de trous de drainage et d'une palette de trois couleurs dans les tons de terre. Produit à partir de ressources naturelles, le pot Manuel peut être utilisé à l'intérieur (avec une soucoupe) ou à l'extérieur, il résiste au gel et se traduit par un produit unique et qualitatif, dont la production est entièrement réalisée au Portugal dans notre usine de terre cuite.

La maceta Manuel se desarrolló como un homenaje familiar, traduciendo en características atemporales, combinando el aspecto clásico de su material con la contemporaneidad de su diseño. Ahora en un nuevo tamaño, esta gama se traduce en macetas respirables con orificios de drenaje y una paleta de tres colores en tonos tierra. Producida con recursos naturales, la maceta Manuel es apta para interior (con plato) o exterior, resistente a las heladas y se traduce en un producto único y de calidad, con producción enteramente realizada en Portugal, en nuestra fábrica de terracota.

[DE]

Die Serie Manuel wurde als Hommage an die Familie entwickelt. Sie ist zeitlos und verbindet den klassischen Aspekt ihres Materials mit der Modernität ihres Designs. Mit einer neuen Größe ist dies eine Serie, die sich in atmungsaktive Gefäße mit Abflussloch und eine Palette von drei Farben in Erdtönen übersetzt. Der aus natürlichen Rohstoffen hergestellte Topf Manuel ist sowohl für den Innen- (mit Untersetzer) als auch für den Außenbereich geeignet, frostbeständig und ein einzigartiges Qualitätsprodukt, das vollständig in Portugal in unserer Terrakotta-Fabrik hergestellt wird.

Mariza

The diva of Fado in Portugal and the world, Mariza, inspires this range in a *classic* but very *detailed* way, offering charisma and personality to each plant, shop and decorative space. Suitable especially for outdoor use, this range is available in larger sizes and with a choice of three earthy colours. Mariza pots are breathable, environmentally friendly and have drainage holes and frost-resistant properties.

[PT]

A diva do Fado em Portugal e no Mundo, Mariza, serve de inspiração para esta gama de forma clássica mas bastante detalhada, oferecendo carisma e personalidade a cada planta, loja e espaço decorativo. Indicada especialmente para uso outdoor, esta é uma gama disponível em tamanhos maiores e com três cores em tons terra à escolha. Os vasos Mariza são respiráveis, amigos do ambiente e apresentam orifício para drenagem, para além de propriedades resistentes ao gelo.

Siza

Inspired by the most awarded Portuguese architect, Álvaro Siza Vieira, this **robust plant box** brings life to any decorative environment. Fusing traditional material with its **contemporary design**, this is an option that marks the versatility and competitiveness of your business. Suitable for indoor (with a saucer) and outdoor use, this is an eco-friendly, breathable solution with a drainage hole. Produced with natural resources in our terracotta factory in Portugal.

[PT]

Inspirada no arquiteto português mais premiado de sempre, Álvaro Siza Vieira, esta é uma floreira robusta e concebida para dar vida a qualquer ambiente decorativo. Fundindo o material clássico com o seu design contemporâneo, esta é uma opção que marca a versatilidade e competitividade do seu negócio. Indicado para uso indoor (com prato) e outdoor, esta é uma solução eco-friendly, respirável e com orifício para drenagem. Produzida com recursos naturais na nossa fábrica de terracota, em Portugal.

Watering Solutions

AQUATERRA

AquaTerra

Aquaterra is a *smart*, efficient and sustainable *terracotta self watering system* that *hydrates the plant directly at the root*. This practice promotes healthy growth and reduces water consumption and plant maintenance worries. To use it, simply *fill it with water and place it in the soil*. Aquaterra is buried close to the plant, gradually releasing the water into the soil. Being a porous material, terracotta allows water to be released as the plant needs it. With the terracotta saucer that prevents evaporation, Aquaterra reduces watering frequency and keeps the soil constantly moist. Once watered, the 1-litre model allows up to 10 days of watering, while the 5-litre model allows up to 30 days of watering.

[PT]

Aquaterra é um sistema prático, eficiente e sustentável de auto-irrigação em terracota que hidrata a planta diretamente na raiz. Esta prática promove um crescimento saudável e reduz o consumo de água e as preocupações com a manutenção das plantas. Para a sua utilização, basta enchê-lo com água e colocá-lo no solo. O Aquaterra é enterrado perto da planta, libertando gradualmente a água no solo. Sendo um material poroso, a terracota permite que a água seja libertada à medida da necessidade da planta. Com o prato de terracota que evita a evaporação, o Aquaterra reduz a frequência de rega e mantém o solo constantemente húmido. Depois de regado, o modelo de 1L permite até 10 dias de irrigação, sendo que o modelo de 5L permite até 30 dias de irrigação.

[FR]

Aquaterra est un système intelligent, performant et éco-responsable d'auto-irrigation en terracotta, qui hydrate directement la racine de la plante. Cette méthode favorise une croissance saine des plantes, tout en réduisant la consommation d'eau et simplifiant leur entretien au quotidien. Pour l'utiliser, il suffit de le remplir d'eau et de l'intégrer directement dans le sol. L'Aquaterra se place près de la plante, libérant lentement l'eau dans le sol pour une irrigation continue. En raison de sa porosité, la terracotta permet à l'eau de s'évaporer progressivement, selon les besoins de la plante. Le plateau en terracotta de l'Aquaterra limite l'évaporation, diminuant ainsi la fréquence des arrosages et assurant une humidité constante du sol. Une fois arrosé, le modèle de 1L assure une irrigation jusqu'à 10 jours, tandis que le modèle de 5L offre jusqu'à 30 jours d'irrigation.

Aquaterra ist ein smartes, effizientes und nachhaltiges Selbstbewässerungssystem aus Terrakotta, das die Pflanze direkt an der Wurzel mit Wasser versorgt. Diese Praxis fördert ein gesundes Wachstum, reduziert den Wasserverbrauch und verringert den Pflegeaufwand für die Pflanzen. Für die Verwendung genügt es, es mit Wasser zu füllen und in die Erde zu setzen. Aquaterra wird in der Nähe der Pflanze eingegraben und gibt das Wasser nach und nach an den Boden ab. Als poröses Material ermöglicht Terrakotta die Abgabe von Wasser, wenn die Pflanze es braucht. Mit seiner Terrakotta-Schale, die Verdunstung verhindert, reduziert Aquaterra die Häufigkeit des Gießens und hält den Boden konstant feucht. Nach dem Gießen ermöglicht das 1L-Modell eine Bewässerung von bis zu 10 Tagen, während das 5L-Modell bis zu 30 Tage Bewässerung bietet.
